SLEWRC Approves New Mini-Grid Tariff Structures (2026-2030) for Power Leone, PowerGen, and NOA Leone

July 16, 2026

Freetown, Sierra Leone

The Sierra Leone Electricity and Water Regulatory Commission (**SLEWRC**) announces the approval of updated tariff structures for licensed mini-grid operators under the Rural Renewable Energy Project (RREP).

Following formal tariff applications submitted for the second **Multi-Year Tariff Order (MYTO) period covering 2026–2030**, the Board of the Commission met on **July 15, 2026**, and approved the new structures.

The Commission conducted comprehensive technical, financial, operational, and regulatory assessments alongside extensive stakeholder and community consultations across all affected mini-grid service areas. These approved decisions aim to balance operator financial sustainability with customer affordability, service reliability, transparent billing, and robust consumer protection.

Approved Tariff Schedules (2026–2030)

Note: All approved tariffs utilize an exchange rate of **SLE 23.00 per 1.00 USD**.

Power Leone

Description	WP 1		WP 2	
	SLE	USD	SLE	USD
Tariff structure	10.70/kWh	0.47/kWh	10.70/kWh	0.47/kWh
